Product description:

For a youthful appearance

This luxurious cream with a soft texture offers the skin relaxation and caring nutrients. OPC from grape seeds provides skin cells with fresh energy. Hyaluronic Acid and Q10 lend elasticity and suppleness. Contours are refreshed and toned for a radiant and youthful appearance.

A combination of three substances can help your skin keep or even regain its youthful appearance. ECO Cosmetics relies on the strength of OPC (oligomere proanthocyanidine from grape seeds) to protect cells. OPC is known as one of the strongest plant-based antioxidants. It releases the skin from oxidation protection. Cells use energy reserves released in this way for their optimization.

According to long-term studies cells may even be able to rejuvenate. Extra support is provided by Q10 and hyaluronic acid, which are already successfully utilized in numerous anti-aging products.
