

Basic shampoo with almond oil

Manufacturer: Droste-Laux

Order ID: DL0043

Price: 29.95 €

Product description:

Gentle care for hair and scalp

Our alkaline shampoo with many valuable ingredients cleanses the hair, gives it strength and volume and soothes the stressed scalp. Especially suitable for thin and greasy hair and for irritated scalps.

Massage the shampoo generously into the hair and scalp. Enjoy the hair massage and let the scalp bleed. Leave the shampoo on for a few minutes so that it can fully develop its soothing effect on the scalp.

Background:

Hair and scalp have different needs: while hair feels more comfortable in an acidic environment, the scalp, like the rest of the body, likes alkaline care. Since the scalp is the important breeding ground for beautiful and healthy hair, alkaline scalp care is so important.

We have developed a care method that meets the needs of hair and scalp in equal measure. The slightly alkaline pH value of 7.4 soothes stressed, flaky or itchy scalps, while the oils it contains, such as almond, argan, jojoba or coconut oil, ensure smooth and well-groomed hair.

Working principle

The slightly alkaline pH value of 7.4 soothes stressed scalps and the nourishing oils it contains nourish and strengthen the hair.

Ingredients:

Aqua, Prunus Amygdalus Dulcis Oil*, Lauryl Glucoside, Pentylene Glycol, Simmondsia Chinensis Seed Oil*, Glycerin, Betaine, Persea Gratissima Oil*, Sorbitol, Xanthan Gum, Chalk, Caffeine, Calcium Carbonate, Silica, Quartz, Magnesium Carbonate, Aquamarine Powder, Moroccan Lava Clay, Magnolia Officinalis Bark Extract, Cocos Nucifera Oil*, Rosmarinus Officinalis Leaf Oil*, Argania Spinosa Kernel Oil*, Acacia Senegal Gum, Helianthus Annuus Seed Oil*, Tocopherol, Thymus Serpillum Oil*, Disodium Cocoyl Glutamate, Polyglyceryl-6 Laurate, Myristyl Glucoside, Sodium Cocoyl Glutamate, Sodium Bicarbonate, Linalool**, Limonene**, Geraniol**

Tips from Gabi Köberl:

Use an acidic conditioner after washing your hair with an alkaline shampoo.
