Product description:

The dry shampoo with its soft cotton fragrance revives the hair instantly: ideal for use on camping trips, at festivals or when working out - the perfect solution for keeping the hair in top form between washes. Porcelain clay and natural cornflour absorb excess oil at the roots and mattify the hair to conjure up a fresh hairstyle in seconds. At the same time, the ingredients volumise the hair and add grip. The dry shampoo gives the hair a clean feel in just a few squirts and reliably delays oil buildup. Whether you have fine, thick, straight or curly hair - this dry shampoo is suitable for all hair types and all hair colours.

Tips from Gabi Köberl:

Application:

- Shake before use.
- Spray onto the hair from a distance of 10-20 cm, massage gently then brush it out thoroughly.
- Style the hair as usual.

Tip: Dry shampoo can delay the hair-washing cycle slightly. Ideally, the hair should be washed thoroughly with a classic shampoo in the evening after use to remove any remaining particles from the scalp and protect it.
